

Packaging: Reload Tape Gun. Keeping the tape gun working.

EQUIPMENT: What you will need

Stanley Knife or Box cutter

Tape gun

Tape

SAFETY: How to stay safe

Keep your tape gun away from children.
Put away the tape and the tape gun when they are not being used.

Packaging: Reload tape gun

Tape gun

Get the tape gun ready:

- Pull the old roll of tape up and off the tape gun.
- Pack the roll away so you can get it to use next time.

Tape

Get the new roll of tape ready:

- Pull a short piece of tape from the roll.

Add roll of tape

Push the roll of tape down onto the tape gun.

Pull tape through

Pull the piece of tape through the rollers.

Push gate

Push the little red plastic gate onto the tape.

Test

Pull some tape through the roller to make sure it is working:

- Tear the tape off against the blade.
- The tape gun is now ready for you to use.
